

HEXA-COVER[®]
COVER YOUR LIQUIDS

Hexa-Cover[®] Floating Cover

for controlling such things as:

Odor

Heat loss

Emission

Evaporation

Organic- / Algae growth

Bird Deterrent

✓ Testet by DLG Testzentrum, Germany

HEXA-COVER®

COVER YOUR LIQUIDS

Since its launch in 2004, the Hexa-Cover® Floating Cover has grown to be the leading solution for floating covers.

The unique and patented Hexa-Cover® Floating Cover is a brilliant cover on almost any kinds of liquids.

Hexa-Cover® Floating Cover is the ideal solution for **eliminating** such things as:

- **Evaporation**
- **Organic / Algae growth**
- **Emission**
- **Odor**
- **Heat loss**

Today Hexa-Cover® Floating Cover is in use on all forms of basins, lagoons, reservoirs, containers, ponds and tanks and is used in several applications within i.e.:

Water

- Reservoirs for Fire Protection
- Reservoirs for irrigation water
- Reservoirs for collected surface water reuse
- Bird deterrent
- Spill over tanks
- Wastewater tanks and reservoirs
- Cooling / process water reservoirs
- Reserve water reservoirs
- Compensation tanks
- Water Settlement Lagoons

Leachate

Decoction

Chemical tanks

Oil

Agriculture

- Storage facilities
- Biogas plants
- Slurry/Manure tanks (pigs, cows, poultry, mink)
- Drinking trough

Az. Ag. Osteria Vecchia S.S. , Borgonovo Val Tidone (Italy):

Nordic Sugar A/S

Mr. Ture Kliving, Nordic Sugar A/S, explains: "We chose Hexa-Cover® Floating Cover for covering our pool for several reasons. First of all the Hexa-Cover® Floating Cover ensure an effective reduction of odors but also because the solution is simple and straightforward. The Hexa-Cover® Floating Cover is poured in, and automatically they create a coherent cover and automatically adapt to changes in the water level. The lifetime of 25 years was another factor. We are very pleased with the choice of Hexa-Cover® Floating Cover" ends Mr. Kliving

Rockwool International A/S

Christian Jensen, Rockwool International A/S explains: "We are now experiencing a significant difference. There is no clogging of filters because of algae and this means no stop-pages at the plant, which again means huge savings in our operational costs. Furthermore, the Hexa-Cover® Floating Cover - compared to i.e. tents and tarpaulins - is a much cheaper and easier solution.

In fact the Hexa-Cover® Floating Cover come at around half the price of a traditional tent or tarpaulin and they are very easy to install and operate. You simply add the Hexa-Cover® Floating Cover into the container, and they distribute themselves automatically making a cover that needs no inspection and/or servicing. So, all in all, we are very satisfied with the solution chosen – it is environmentally friendly, cheap and very easy to deal with" adds Christian Jensen".

O'Neills Sport

"We are very happy with the performance of the Hexa-Cover® Floating Cover, the odor problem has disappeared"

SKZ-TeConA GmbH

Kunststoff-Zentrum SKZ, Germany chose Hexa-Cover® Floating Cover for a Hot Water Application.

"At SKZ we have installed the Hexa-Cover® Floating Cover in a 95 C test facility. The development of moist, and the evaporation is reduced significantly"

HEXA-COVER®

COVER YOUR LIQUIDS

Hexa-Cover® Floating Cover:

Can be installed in both empty and full (max 5 meter drop)

Hexa-Cover® Floating Cover:

“Sloped walls”: At changes in the level of the liquid, the Hexa-Cover® Floating Cover will automatically be activated and create a coherent cover

Hexa-Cover® Floating Cover:

Effective, easy, maintenance free and long lived

Picture:
3500 m2 water reservoir.
Controlling evaporation
and growth of algae

Hexa-Cover® Floating Cover:

Hexa-Cover® Floating Cover come in big-bags, or in containers. The tiles are simply poured onto the surface, where after the Hexa-Cover® Floating Cover automatically distribute and create a coherent cover

Hexa-Cover® Floating Cover:

Very easy and simple installation

HEXA-COVER®

COVER YOUR LIQUIDS

The Hexa-Cover® Floating Cover ensure:

- Up to 99,9% coverage of the surface
- Up to 95% reduction of evaporation from water surfaces
- Up to 95% stable and constant reduction of emission (i.e. ammonia)
- Up to 90% stable and constant reduction of odors
- Noticeable reduction in organic growth such as algae, weeds etc.
- Noticeable reduction in heat loss

Features and benefits:

- Storm resistance (R114 tested up to 32 m/s)
- Ease of installation, no need for any special equipment
- Installation on both full and empty "tank"
- Automatic distribution of floating tiles on liquid surface
- Automatic adaption to changes in the level
- Fits to all shapes and geometries
- Easy adaption to bigger/smaller surfaces by adding/removing tiles
- 360° free and unlimited access to the liquid for e.g. measuring, emptying or stirring
- Life expectancy of 25 years
- Favourable price
- No running cost
- No repair cost
- No maintenance cost
- No insurance cost
- Significant reduction of heating cost
- Represent a substantial value if sold secondhand
- Unaffected by rain, snow and frost
- Allows installation of aeration to ensure aerobic conditions are maintained
- "Invisible" - the solution does not disfigure the landscape

The Hexa-Cover® Floating Cover is also the environmental friendly solution as it is manufactured of 100% recycled plastic without any use of Freon or other harmful materials.

The Hexa-Cover® Floating Cover;

- Is the solid, robust and long lasting solution
- Has no weak spots, no blow- /injection holes
- Has no hollow areas that eventually will break
- Consists of 6,8 kg PP/m² (R114) - far more than other solutions

The Hexa-Cover® Floating Cover come in two versions:

Hexa-Cover® Floating Cover "R90":

Diagonal measure:	180 mm
Weight:	125 g
Height:	60 mm
No. per m ² :	43
Big-bags:	
130 x 130 x 250 cm:	50 m ²
Weight per big-bag:	ca 270 kg

Hexa-Cover® Floating Cover "R114":

Diagonal measure:	228 mm
Weight:	243 g
Height:	70 mm
No. per m ² :	28
Big-bags:	
130 x 130 x 250 cm:	42 m ²
Weight per big-bag:	ca 290 kg
